Cutting

TONA S180K multifunctional cutting machine

A multifunctional cutting machine for the precise cutting of fruits and vegetables into different cutting shapes such as wedges, slices, sticks, decorative shapes, etc. With its integrated mobile base frame, the machine can be used flexibly in different locations.

up to 1,200 pieces/h Capacity

Your benefits

Perfect and consistent cutting quality with different cutting shapes

Knives can be changed quickly and effortlessly to suit different products or product characteristics

Optimal product infeed – the product to be cut is always centered and guided into the cutting station via the product holders

Most of the cutting tools are identical to those of the HGW/PGW/Tona Rapid

Easy operation and cleaning due to good accessibility

Separation of good and waste product is possible in combination with a discharge conveyor belt

Product groups

Portrait

Perfect cutting quality for processing fruits and vegetables into different cutting shapes

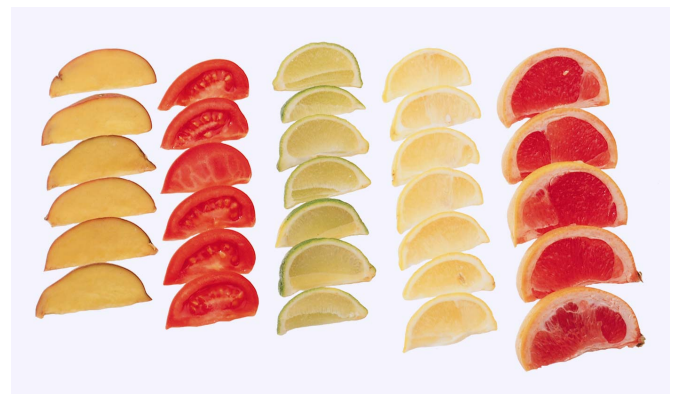

The TONA S180K is a multifunctional cutting machine for fruit and vegetables. It is used in the field of high-care industrial processing. At 20 cycles per minute, it can process up to 1,200 apples, carrots, potatoes, tomatoes, etc. per hour.

The machine is equipped with 16 product holders with centering fingers. For cutting, one cutting insert with a pusher is required in each case. The product is continuously placed into the product holders on the turntable one piece at a time. The products are guided to the cutting station by this cyclic turntable. The cut product is then discharged into a container or a conveyor belt at the rear side of the machine.

The TONA S180K is equipped with a mobile base frame as standard, thus ensuring a high degree of mobility for use in different locations.

Common uses:

- Cutting tomatoes into slices or segments
- Cutting apples into segments with coring
- Halving avocados for subsequent peeling/coring

- Cutting carrots into sticks
- Making potato wedges
- Cutting lemons/oranges/onions into segments or slices
- Cutting carrot or zucchini/courgette pieces into various decorative shapes

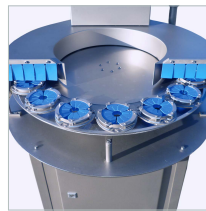

For high capacity requirements, the **TONA RAPID cutting machine** with a processing capacity of up to 4,800 pieces/hour is a good option.

Benefits

Perfect cutting results due to optimum product infeed

The Tona S180K ensures optimum product infeed, i.e. the product to be cut is always centered and fed into the cutting station via the product holders. The Tona S180K convinces with a clean, perfect cutting pattern in a wide variety of cutting shapes. The discharge of the cut product then takes place automatically into a container (customer side) or onto a conveyor belt for further processing.

Simple, safe operation - uncomplicated and fast tool change

The Tona S180K can be operated very easily and ergonomically. Changing the cutting inserts for different application options can be carried out quickly and effortlessly.

High degree of mobility due to mobile base frame

The compact Tona S180K is equipped with a mobile base frame as standard, thus enabling flexible use in different locations.

Technical data

Electrical power	Voltage	230 V N/PE
	Frequency	50 Hz
Dimensions	LxWxH	800 x 1000 x 1400 mm
	Weight	245 kg
	Infeed/placement height	800 mm
Air	Working pressure	6 bar
	Air consumption	17 m³/h
	Cycles per hour	1200
Miscellaneous	Diameter of raw product	max. 80–85 mm
	Length of raw product	max. 80–85 mm

The data indicated are standard information. In addition, adaptation to other supply networks (e.g. 230V/60 Hz) is optionally possible (except for manual and pneumatic machines). Subject to changes.
