Mixing, Conveying, Weighing

KWT 16 weighing platform

A compact personnel platform for the ergonomic and precise weighing and filling of bags in combination with the GKS packaging machines FLEX M and FLEX L. Ideal for use for bulk products of all kinds: vegetables, lettuce and non-food items.

Your benefits

Low space requirement due to a small base area and compact design

Ergonomic design enables user-friendly and productive work

Industrial scale with a large, easy-to-read display

Large weighing table with a usable volume of up to 16 liters

Product groups

Portrait

Ergonomic and space-saving weighing and filling

The user-friendly KWT 16 weighing platform enables ergonomic weighing and filling of bulk goods of all kinds into representative bags, for example vegetables, lettuce and even non-food products.

The platform is adjusted to the height of the respective GKS packaging machine **FLEX M** or **FLEX L**, and the mixing table with the integrated single-head weigher is easily accessible by means of steps. The large weighing container with a usable volume of 16 liters is ideal for weighing whole lettuce leaves, for example lollo bionda up to 1 kg. Up to 5 kg of product – depending on its bulk density – can be weighed and processed.

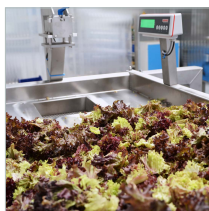

Various options show the flexible application possibilities:

- optimized product infeed, for example with a mobile stainless steel lifting device
- integration into a professional production processing line
- flexible alignment of the stair access
- different height adjustment for diverse machines and applications

The easy cleaning of the platform (made entirely of stainless steel) with the single-head weigher is a further advantage of this system.

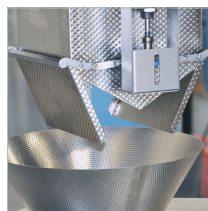

Benefits

Ergonomic work with a practical weighing table

The product and mixing table, which has steps for easy access, is equipped with a calibrated single-head weigher and a large, easy-to-read display.

Large weighing bucket

The weighing bucket with its decoupled pneumatic opening cylinder for the outlet shutters has a usable volume of 16 liters. It is perfect for weighing up to 5 kg of product depending on the product's bulk density – up to 1 kg for whole lettuce leaves such as lollo bionda.

Optimal maintenance, cleaning and operation

The whole system is easily accessible for servicing and cleaning, thus offering optimal hygiene.

Technical data

Electrical power	Power	0.2 kW
	Voltage	230 V N/PE
	Frequency	50 Hz
Dimensions	LxWxH	3590 x 2056 x 2814 mm
Air	Working pressure	6 bar

The data indicated are standard information. In addition, adaptation to other supply networks (e.g. 230V/60 Hz) is optionally possible (except for manual and pneumatic machines). Subject to changes.
